DOTY'S WASHING MACHINE.

LATELY MUCH IMPROVED—AND THE NEW Universal Clothes Wringer

Improved with ROWELL'S PATENT COG-WHEELS and the PATENT STOR, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

The editor of the Point Pleasant Register, who has one of these machines thus bears testimony to their worth.

We can knowingly recommend these machines to be just what their manufacturer represents them. We have had them in regular use in our own family for over six months, and we find that all the really hard labor and drudgery of washing is entirely dispensed with by their use. Washing is a neat and pleasant employment for a lady with one of Doty's Washing Machines and Wringers, and we have thought that a millionaire, with no dependant heirs upon whom to bestow his fortune would become one of the greatest benefactors of his race by endowing a fund with which to give one of these Washing Machines to the thousands of overworked washerwomen which we have in our land. Notice the liberal offer made by Mr. Browning in this advertisement. There is no deception in this offer, and we would be willing to guarantee its fulfillment to the letter. Let every family which can possibly do so, buy Doty's Washing Machine and Wringer.

PRICES—A Fair Offer.

If the Merchants in your place will not furnish, or send for the Machines, send us the retail price. Washer \$15, Extra Wringer \$10, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer and Universal Wringer.
